

AMERICAN GLAUCOMA SOCIETY
CARES

Help Us Save Our Patients' Most Treasured Sense

No one, anywhere, should have to suffer a life less lived because of the consequences of glaucoma.

The American Glaucoma Society Foundation is working to revolutionize glaucoma care and prevent needless loss of vision for individuals worldwide.

You can help us make a difference.

Through the reach of our powerful resources and innovative programs, we provide tangible support to glaucoma specialists and glaucoma researchers through educational lectures and workshops, research awards and mentoring, and our AGS Cares public service program.

Donate today.
